

Speaking

ideas

By Faranak

Social media for business - Agree

- 1- Provides a platform to reach a large and diverse audience
- 2- By establishing online presence, companies can connect with their potential customers
- 3- Increases their brand visibility
- 4- Build customer relationship
- 5- Provide better customer's service
- 6- They are helpful, because they provide valuable feedbacks

Many speakers for the university lecture- Agree

- 1- Many controversial opinions will attract a lot of students to enroll in these lectures
- 2- By inviting speakers with different mindsets, universities can promote intellectual growth and the ability to analyze different viewpoints

Taking pictures of places- advantages

- 1- We don't need to revisit these places. (cost beneficial)
- 2- Using pictures is a way to express our memories to our friends while discussing our significant journeys.

Honesty- advantages

- 1- It helps us to build a genuine relationship
- 2- Using honesty as a foundation for building relationships contributes to a future life, including our married life
- 3- It is immensely helpful in elevating the quality of our lives

Sports on education-advantages

- 1- Physical health benefits
- 2- Stress reduction
- 3- Teamwork and leadership skills
- 4- Improve concentration and focus

Parents see their children's grade without permission- disagree

- 1- Pose harmful effects on parental relationship
- 2- Children have their own privacy and independence, and respecting these factors is of high importance

Government focus on business- “prefer” question

- 1- Strong economy provides more power for the country
- 2- Results in more job employment and more satisfaction
- 3- People can enroll in certain government-sponsored activities, and the government will provide financial guarantees for their participation

Fast food is good choice

- 1- It is great for people who do not have enough time for cooking.
- 2- It has a lower cost than other types of food, allowing individuals without independent financial resources to afford them.

Children and pets- agree

- 1- Foster a sense of empathy.
- 2- Establish an emotional connection.
- 3- Nurture a sense of responsibility, which will manifest in their future lives when they become parents.

Oversharing- disagree

- 1- Jeopardize our privacy.
- 2- We can't rely solely on our decisions and must always consult with others.
- 3- Pose harmful effects on our sense of independence.

Final exams- disagree

- 1- Don't consider the progress of every individual solely based on their abilities.
- 2- The results are an unreliable measurement for evaluating students' learning due to external elements and the pressure of the exam.

Keep items or discard them? Keeping them

- 1- They evoke a sense of nostalgia and are memorable.
- 2- For example, a gift from a high school friend reminds us of that time.
- 3- Some items that may seem useless now will become useful in the future, eliminating the need to repurchase them.

Roommate character: friendliness

- 1- Due to our strong friendship, we don't experience a sense of loneliness when we are far away from home.
- 2- We help each other in various aspects, fostering a learning atmosphere and providing a great environment where we can complete assignments together.
- 3- Additionally, we support each other in different tasks, such as cleaning.

An advantage of the praise- a disadvantage of the punishment

Praise:

- 1- By admiring children, we motivate them to repeat and improve their behavior.
- 2- Positive reinforcement encourages them to excel beyond their previous efforts.

Punishment:

1. Imposing punishment can have harmful impacts on the parent-child relationship.

Beautification of the university

Flowering plants:

- 1- Planting flowers enhances the aesthetic appeal, bringing a touch of natural beauty to our surroundings.
- 2- It is more effective than other artificial arts in reducing stress levels.
- 3- Flowering plants help the university reduce its CO2 footprint, making them highly beneficial for environmental preservation overall.

Sports for children

- 1- Results in robust cognitive abilities.
- 2- Creates greater concentration and mental well-being.
- 3- Reducing stress levels will reflect in students' academic performance and learning.

Advantages of the students' administrated jobs

- 1- A great place to elevate their skills and enhance their abilities in various aspects such as leadership, decision-making, and time management.
- 2- Places administered by students provide a friendly environment, attracting other students to spend their free time between classes.

Importance of math for every individual

- 1- Fosters critical thinking.
- 2- It helps individuals approach problems with a systematic and logical mindset.
- 3- Helps us make informed decisions by analyzing and evaluating options.

Art craft workshops for students

- 1- In a world dominated by robots, learning how to encounter challenges in our lives is important.
- 2- Provide a suitable place (conducive environment) for children to learn to make their own things.
- 3- It is good practice for real-world problems.
- 4- Will foster a sense of creativity, which is beneficial for their learning.
- 5- Participating in art workshops often involves collaboration and sharing ideas with peers, helping children develop social skills such as teamwork, communication, and cooperation.

Advantages of the internship

- 1- Provides hands-on experience in real-world work.
- 2- Applies theoretical knowledge to practical situations.
- 3- Enables networking and building connections in the industry.

Math for artists

- 1- Elevates their creativity.
- 2- A basic understanding of math, such as proportion, is essential for artists to create visually well-shaped and balanced artwork.

Computer games-advantages

- 1- They are attractive due to their variety in every genre.
- 2- They are graphically interesting and can attract a wide range of ages from young to old.
- 3- They have numerous applications, such as in education for teaching purposes.

Having a plan-advantages

- 1- Devising a plan meticulously can assist us in considering our money and time for our actions.
- 2- It helps us to use them more efficiently.
- 3- While plans provide structure, they also allow for adaptability.
- 4- A well-constructed plan includes contingencies and the ability to adjust strategies in response to changing circumstances.

Research paper instead of exams

- 1- The pressure and stressful atmosphere of exams, which contribute to poor performance, will be eliminated.
- 2- Help students by developing their research skills, which are prerequisites for further academic stages.

Game for educational purposes

- 1- They are interesting because of their visual effects for students, rather than traditional books.
- 2- Teachers can utilize a combination of modern teaching methods to enhance students' learning.

Children do household works-agree

- 1- It is a kind of practice that helps them prepare for their future life.
- 2- It helps them elevate their different skills to deal with realistic problems.
- 3- They can cultivate a sense of independence and self-sufficiency.
- 4- It helps to create a strong bond with their parents.

Having cellphone all time

- 1- We are living in a world that is accompanied by technology, and having cellphones is crucial.
- 2- We can use them in various aspects, such as banking, finding locations, and translating.
- 3- We can use them to solve our complicated problems swiftly and completely.
- 4- For example, using a translator app when we encounter foreign tourists.

Parents should exercise control over the television programs their children watch-Agree

- 1- Some programs are inappropriate for children.
- 2- They do not have the ability to distinguish between bad and good content.
- 3- It is crucial for parents to monitor this process because it can have harmful effects.

The impact of individual actions on environment

- 1- It has cumulative impact, while individual actions may seem small on their own, the cumulative effects of millions of people making eco-friendly choices can result in positive impacts on the environment
- 2- When individual adopt environmentally friendly practices, it sets an example for others, encouraging a collective change in mindset

Humorous teachers

- 1- Make learning more enjoyable
- 2- Alleviate the stress and create positive learning environment
- 3- Use flexible teaching approaches, attracting students' engagement

Using video chats for communication

Agree:

- 1- It is easy to access, only requiring a device and internet connection.
- 2- We do not need to pay extra costs for traveling long distances to see our friends.

Disagree:

- 1- Because of the limitations of visual information, we cannot capture subtle facial expressions and body language. These limitations result in misunderstandings during conversations, impacting the overall quality of communication.

Doing experiments for students

- 1- By doing these activities, they experience hands-on work.
- 2- As a result, they learn how to encounter real problems.
- 3- Participating in experiments motivates students to be creative and select the best solutions.

Encounter with problems- be serious

- 1- A serious person is a focused one, with a great ability to concentrate in challenging situations.
- 2- Consequently, by being more concentrated, we can resolve our problems swiftly and completely.
- 3- This allows us to save our time and money and use them more efficiently.

Choose private place for having discussions

- 1- It is our comfort place.
- 2- The quietness of the place helps us to concentrate more.
- 3- The sense of privacy motivates us to share our ideas freely, without any fear.
- 4- The safety of homes creates a conducive environment for serious talks.

Students choose their course

- 1- They have the ability to distinguish between useful and useless courses.
- 2- If they choose their course, they will be motivated to study more and allocate their time for academic purposes.

First do simple things

- 1- By doing simple things first, we can conserve more energy and allocate it for the challenging ones.
- 2- Accomplishing simple tasks motivates us for further challenging activities.
- 3- It fosters a sense of confidence in ourselves that prompts us to continue our actions.

Example: When we decide to learn math, it is important to prioritize simple tasks and then progress to more challenging problems and solve them. Implementing this method can lead to further achievements.

Celebrities use their money and fame to influence society

- 1- Celebrities have significant financial resources that they can dedicate to charitable purposes. For example, providing food for impoverished areas and aiding children worldwide who suffer from famine and lack access to education facilities.
- 2- Celebrities play a critical role in every society, as they have a profound impact on individuals. If they use their fame for charitable purposes, they can influence people's mindset, encouraging them to engage in similar acts of philanthropy.

Classical instruments

- 1- Classical instruments form the foundation of music, so it is important for a child who is eager to learn music to become familiar with them.
- 2- The uniqueness of classical instruments is beneficial for individuals who want to continue their career as music teachers.

Keep our traditional culture

- 1- Preserving cultural heritage gives us a sense of identity, connection to our roots, and a sense of belonging.
- 2- By sharing our customs, we can make meaningful connections with others.
Example: During my childhood, we moved to another city. My mom cooked our traditional food for our neighbors. It was a great way to promote our culture and create a strong bond with them.

Advantages and disadvantages of saving our information on electronic device

Advantages:

- 1- Cost-effective: We do not have to pay extra money for saving our data in paper-based and traditional forms.
- 2- It has easy accessibility, allowing us to analyze and organize our data more accurately.

Disadvantages:

- 1- It is sensitive to every strike and requires high protection to prevent data loss or damage.

Students and part-time jobs

- 1- They can experience hands-on work, leading to the elevation of their skills in various aspects, such as leadership, time management, and financial management. These are critical factors for their future careers.
- 2- They can earn a significant amount of money and spend it on academic purposes, enrolling in various activities, science courses, sports, and art.

Children be independent

- 1- They can learn different life skills through independence, such as decision-making, problem-solving, and critical thinking.
- 2- Independence fosters a sense of responsibility.

Example: If a child breaks a neighbor's window, an independent person takes accountability for their actions and apologizes for them. Overall, it is really helpful for children to be independent because they can experience a sense of confidence.

Taking pictures without permission - disagree

- 1- It is rude behavior.
- 2- Individuals value their personal spaces, so it is really important for us to respect this privacy.
- 3- If we want to take some pictures, we can ask them politely; otherwise, it is such an invasive and disrespectful behavior.

Go to large stores for shopping

- 1- The variety of items creates a convenient place for individuals to buy any products they want.
- 2- It has great accessibility to a wide range of products.
- 3- It is cost-effective for two reasons: they sometimes offer great deals on their products, and we do not have to pay extra costs for transportation from different stores to buy various items.

Universities with excellent academic program

- 1- Because of their reputation and high educational facilities, they provide a conducive learning environment for every student.
- 2- These universities have great connections with industry; in fact, they can provide many job opportunities for their graduated students.
- 3- Tuition fee problems can be alleviated if students engage in on-campus and off-campus part-time work.

Historical site-do not open to public

- 1- They have a frail structure, and people may unintentionally pose harmful effects on these places and their artifacts.
- 2- These places do not have the capacity to tolerate the pressure of overcrowding.
- 3- People can use the internet to see images of these places and visit museums to view artifacts.

Schools should not close computer rooms

- 1- These places are highly suitable for some students who cannot afford to buy their own laptops.
- 2- Maybe some students have their own personal computers, but they may crash. Students can use these labs for their work.

Do not report to our family and friends

- 1- Sometimes we need to be on our own and do things solely.
- 2- It will pose negative effects on our sense of privacy.
- 3- Also, reporting our current situation to our friends and family can force us to behave according to their rules, potentially leading to a loss of independence.

Government funding for animal preservation

- 1- It will reveal that protecting endangered animals is a collective responsibility.
- 2- Governments, due to their larger financial resources, can devise long-term plans including various programs for protecting animals and their habitats.

Change appearance by surgery

- 1- We must love ourselves just the way we are.
- 2- If we show more respect for our bodies and appearance, it will cultivate a sense of confidence, which is really valuable for every individual's life.
- 3- All cosmetic surgery has negative impacts on our overall health.

Rapid growth of cities has positive impacts on cities

- 1- Increases in population will encourage different businesses to establish their company in that city, leading to more job opportunities. This decline in unemployment results in a burgeoning economy.
- 2- Rapid urbanization can prompt the development of infrastructure, such as roads and public transportation, improving the overall quality of life for residents.

Students should spend as much time studying the history of the world

- 1- Allocating time for studying the history of the world is helpful for individuals as it allows them to foster cultural awareness and a global perspective. This concept helps them to create strong bonds with other nations.
- 2- By gaining information about the world's history, we can continue our career path as experts in history majors, such as becoming a tour guide or history professor.

University should record all important classes and put them on the websites

Advantages:

- 1- Recording classes allows students to access important lectures and materials at their convenience. This is especially useful for students who may miss a class because of illness.
- 2- Different students have different learning styles, and some students may benefit from reviewing class recordings.
- 3- They are a great source of exam preparation.

Challenges:

- 1- There is a risk that recorded classes could be misused.
- 2- Some students may have difficulty accessing online platforms.
- 3- The quality of recorded lectures, including video and audio, may vary. Poor quality recordings could potentially hinder the learning experience for students.

People prefer negative news

- 1- Negative news is more attractive to humans who have a natural negativity bias, as they tend to pay more attention to negative events. Negative news often signals potential threats that could affect our safety.
- 2- Negative news also has a viral nature, as it can include significant events such as natural disasters, wars, and economic crises.

Good luck is important as hardworking-disagree

- 1- Relying on chance is irrational, as it is very fortuitous and random.
 - 2- However, hard work is always accompanied by achievements.
 - 3- If we work hard, we can see results as soon as possible.
- Example: During my bachelor's degree, I had a roommate who thought she could pass the test without studying. I allocated most of my time to studying. The results showed that tenacity does not disappoint us, as I got the best grade, while she failed.

Read news about other countries

- 1- It is a great idea because we can foster global awareness in ourselves, which gives us a comprehensive and informed perspective on global issues.
- 2- Being aware of every occurrence around the world helps us to stay informed about trends globally.
- 3- Understanding the interconnections of the world can shed light on how international developments may affect our region.

People with ordinary background can be the governments leaders

- 1- Leadership skills, such as strategic thinking, decision-making, and effective communication, are crucial for government leaders. Therefore, basic knowledge alone is not sufficient for this purpose.
- 2- Successful government leadership requires political experience; individuals with an ordinary background may lack the political experience necessary to navigate the complexities of governance.

Parents should control the children's usage of the social media

- 1- Not every content is suitable for young children. The role of parents is truly crucial in preventing children's access to such content.
- 2- The usage of smartphones and social media has negative impacts on students' educational performance. Parental monitoring can deter any deviation from educational purposes.

Postgraduate students should be allowed to teach

Agree:

- 1- They undoubtedly possess sufficient ability to engage in teaching activities.
- 2- Utilizing postgraduate students as teachers assists the university in addressing issues related to the shortage of professors and staff.
- 3- Generally, it is advantageous for them as it allows them to enhance their mentoring skills and acquire valuable teaching experience.

Disagree:

- 1- Their focus should primarily be on their research endeavors rather than teaching.
- 2- The quality of instruction may be compromised when postgraduate students, who may not have the same level of expertise as experienced professors, are utilized as teachers.

Entertaining movies

- 1- They provide good entertainment that individuals can enjoy when they are tired from work, serving as a source of relaxation.
- 2- Watching these shows allows us to experience a sense of interest due to their visual effects and cinematic appearance, which appeal to everyone.

Going museum with our friends

- 1- Engaging in discussions with our friends during visits is beneficial for everyone as it allows them to exchange ideas about each artifact.
- 2- Laughing and conversing with friends also creates enjoyable memories, making our journey more memorable.

Home schools

- 1- It is a valuable opportunity for students living in poor areas to participate in classes.
- 2- Home, being our place of comfort, provides a suitable environment for concentration due to its quietness and tranquility.
- 3- This sense of convenience enables students to reduce the stress levels they may experience in traditional classes.

Group assignments- advantages and disadvantaged

Advantage:

- 1- Allocating group activities as an assignment is highly beneficial because it helps students elevate their social skills, learn to work with others under group rules, and take responsibility for their actions. They can share experiences, exchange ideas, and assist each other's learning.

Disadvantage:

- 1- Group assignments can sometimes be unfair. Students may not divide the work equally, leading to one group member bearing extra pressure. Additionally, conflicts may arise over leadership positions within the group.

Students record class

- 1- It is beneficial for students as they can use these recorded voices as a valuable resource for their exams.
- 2- Recorded voices are particularly helpful for classmates who are unable to attend class due to illness, ensuring they do not fall behind in their studies.
- 3- Given that every student has different learning styles, re-listening to these recorded voices provides significant assistance in enhancing their learning.

Notice people by first observation-disagree

- 1- Forming a judgment based solely on initial observation is not an appropriate method to truly understand each person.
- 2- It takes considerable time spent with individuals to comprehend their deeper values and beliefs.
- 3- Understanding a person's interests necessitates ongoing conversations and interactions.
- 4- Our initial perspective towards individuals may sometimes be negative, but it can change over time with deeper acquaintance.

Example: My best friend and I initially had different impressions of each other, but as we spent more time together, we came to understand each other's values, beliefs, and interests, leading to a strong and enduring friendship.

Establishing companies regardless to their impacts on environment

- 1- It creates more job opportunities, which are important factors for fostering a burgeoning economy.
- 2- Investment in construction companies may lead to developments in infrastructure, such as roads and public transportation, which can have a positive impact on the environment.
- 3- The presence of large factories will increase tax revenue, enabling the government to allocate this additional money to improve public services such as education and healthcare systems.

Benefits of smart phones; recording class

- 1- If students encounter difficulties attending classes, they can utilize recorded voices of professors provided by other students.
- 2- Students possess varying learning styles, allowing them to review materials using these recorded voices multiple times to enhance their performance and learning.

Parents should protect students from making mistake-disagree

- 1- Children often prefer learning from realistic situations rather than heeding advice.
- 2- It is crucial for parents to allow their children to make mistakes and learn from adverse situations as it fosters a sense of responsibility.
- 3- Furthermore, this approach promotes independence, enabling children to rely on their abilities and providing opportunities for learning from experiences while developing problem-solving skills.

Children should read news-disagree

- 1- The content of some news may indeed be dangerous for young children.
- 2- It is imperative for children to allocate time to play with their peers and learn social skills, which are essential for their development.
- 3- Reading negative news can potentially have harmful effects on their mental health.

Advantages of the building universities in small towns

- 1- Building universities in small towns or rural areas can indeed bring the advantage of increased accessibility to education for local residents.
- 2- Additionally, due to the connection of the university with the industry, it can create potential job opportunities for the graduated students from the town.

Exam at home

- 1- Homes are our comfort places. Due to their safety and quietness, students can concentrate more on their exams.
- 2- The pressure of the rigid exam atmosphere is alleviated.
- 3- Overall, this environment has positive impacts on students' performances.

Interrupt people when they are speaking

- 1- Interruptions can lead to misunderstandings, subsequent conflicts, and hinder productive conversation.
- 2- Such behavior is invasive and rude. It is crucial to respect individuals during their conversations.

Use video conference for meeting

- 1- Remote work offers flexibility in time scheduling, allowing employees to manage their work hours more effectively.
- 2- It is highly cost-effective as companies do not incur additional expenses associated with gathering employees from different parts of the world.
- 3- Remote work facilitates global collaboration, as technology enables individuals and teams located in different countries to collaborate seamlessly.

Advantages and disadvantages of not being active in social media

Advantages:

- 1- Remote work allows individuals to allocate their time engaging in various activities such as reading, exercising, and studying.
- 2- Avoiding social media can contribute to sustaining mental health and reducing exposure to negative news.

Disadvantages:

- 1- Social media platforms provide opportunities for interaction with friends. By avoiding them, individuals may communicate with their friends less frequently, which could negatively impact their relationships.

Use others' influence to get our job-disagree

- 1- It is an unfair way, maybe we do not have enough skills and knowledge about that job compared to others. Therefore, participating in these jobs will hinder the job opportunities for them.
- 2- Use of influence is a kind of abuse of power. By using other's influence sometimes, the incompetent persons will be chosen, and they may encounter with problems that they cannot solve them.

Allowing local communities enter the classrooms-disagree

- 1- It poses harmful effect on the students' privacy when someone stranger enter the classroom without any participation
- 2- Allowing the entrance of the community to the classrooms may cause distraction and disrupt learning environment

Advantages of E-books

- 1- The easy accessibility to every book online addresses the challenge of finding physical books in bookstores, providing students with access to a wide range of reading materials.
- 2- Online books typically have lower prices compared to traditional books, which is advantageous for students with limited financial resources.

Answering students' question during the class

- 1- Answering questions during class may lead to distractions for other students.
- 2- Inappropriate questions have the potential to disrupt the conducive learning environment of the class and cause digressions.
- 3- Furthermore, teachers can employ various strategies to motivate students to think critically about questions, encouraging creativity and concentration to derive answers from the context.

Library disappearance because of new technology

- 1- Libraries are suitable places for students who seek quiet study environments.
- 2- The comfort and tranquility of libraries create a conducive atmosphere for individuals to focus on their studies.
- 3- Some books are invaluable treasures representing significant historical value. Therefore, libraries serve as excellent repositories for preserving such books.

Advantages of the summer vacation for students

- 1- It provides a valuable opportunity for students to escape from the stressful atmosphere of school.
- 2- During these experiences, students can engage in various activities that help them develop their social skills, collaboration abilities, and spirit of exploration.

Groups' decisions instead of individual's decision

- 1- Making decisions in groups offers several advantages. Collective thinking, drawing from diverse perspectives, enhances decision-making by considering various aspects of each concept, ultimately leading to successful outcomes.
- 2- Additionally, individuals can enhance their social skills through participation in group decision-making processes.

Children museum=robot exhibition

- 1- We live in a world driven by robots, which captivates children's interest in observing machines at work.
- 2- Witnessing robots in action can motivate students to enhance their creativity and attempt to design practical devices of their own.
- 3- Exploring the intricacies of robots' aids students in honing their mathematical skills, fostering development in problem-solving, decision-making, and critical thinking.

Investing in education

- 1- Absolutely, education plays a pivotal role in equipping individuals with the skills and knowledge needed to engage in the labor market, initiate entrepreneurial endeavors, and foster social and economic progress. Therefore, it is imperative for policymakers to prioritize investment in education to secure sustainable economic growth and development.

Competitive activities for children

- 1- Engaging in these activities is beneficial for children as it aids in the development of their social skills, teaches them how to collaborate effectively with others, and encourages teamwork.
- 2- Furthermore, healthy competition nurtures creativity and innovation in individuals, providing them with skills they can utilize during more challenging moments in the future.

Work experience for employees

- 1- Experienced employees possess leadership skills and the ability to effectively manage and guide new workforces.
- 2- Utilizing experienced employees can lead to a reduction in the cost of training programs for companies, as these employees already possess a solid theoretical and practical background.

Entertainment for students: theater performance by the student actors

- 1- Activities involving student participation tend to be more enjoyable for students due to their active involvement.
- 2- The sense of interest and the valuable experiences students gain from such activities are truly fascinating and enriching.

Assignment: act out a scene from a play with a partner

- 1- The practical nature of this assignment sets it apart from traditional forms, offering a different approach to learning.
- 2- Participating in a role enables us to transform theoretical knowledge into practical application.
- 3- Additionally, working with a partner helps students enhance their cooperative skills, fostering collaboration and teamwork.

Small organization

- 1- In small companies, individuals have a better opportunity to showcase their talent and proficiency.
- 2- Small companies, with their fewer employees, foster a friendly and supportive work environment for their workforce.

Popularity of technology influences on books reader

- 1- Technological advancements have revolutionized information access. Individuals can obtain information through social media, whether it is accurate or not.
- 2- They often spend their time chatting and sharing photos on social media platforms.
- 3- For reading purposes, they tend to utilize electronic versions of materials.

Apartment next to campus

- 1- The proximity of the apartment to the university saves us time by avoiding heavy traffic and long commutes.
- 2- Additionally, it is cost-effective as the close proximity to campus eliminates the need for expensive commuting. Furthermore, any potential increase in rent due to the proximity is offset by the savings in transportation costs.

Building a house in a green space

- 1- Increased population density in an area can have harmful effects on the environment, leading to more pollution and disruptions to wildlife habitats, such as those of birds.
- 2- In the current global context, preserving the environment is paramount, and any actions that contribute to its destruction are illogical and unsustainable.

Hold music festival for companies

- 1- Music serves as a universal language that bridges cultural gaps, offering insight into the traditions and values of different nations.
- 2- Music performances provide enjoyable entertainment for individuals, fostering a positive environment where employees can dance together and create cherished memories.

Calls rather than messages

- 1- Phone calls are preferable as they help eliminate misunderstandings that can arise from the lack of tone in written messages.
- 2- Calling individuals eliminates the need for physical visits; instead, we can communicate through phone calls or video chats, offering a convenient alternative.
- 3- Phone calls allow for immediate responses, particularly in emergency situations.
- 4- When an immediate answer is needed, a phone call is the most efficient communication method.

Read in politics

- 1- Reading news or engaging with political content provides us with a sense of awareness about current events and issues.
- 2- Acquiring political knowledge is crucial for everyday life. Being informed about events in our country offers us meaningful insights into societal and political dynamics.

Students' debate on political and social topics

- 1- Individuals with diverse viewpoints can contribute to creating a competitive and intellectually stimulating atmosphere, which can be appealing to students.
- 2- Varied perspectives on politics and society offer us a deeper understanding, fostering the development of our critical thinking skills.

More learning with the assistance of research papers and assignments

- 1- Engaging in these activities helps students alleviate the stress and pressure associated with exams.
- 2- With reduced stress, students can better concentrate on their assignments.
- 3- Through completing assignments and papers, students can translate their theoretical knowledge into practical applications, which greatly benefits their learning process.

Stay up and study

- 1- However, getting some sleep is better than getting none. Sleep is the period when your body repairs its tissues, replenishes hormones, and transfers short-term memories into long-term memories. If you skip a night's sleep, your mental function and mood will significantly decline the next day.

Energy and environment courses

- 1- Acquiring information in this field provides valuable insights into Earth's conditions and their sources, enhancing our understanding of the environment.
- 2- This knowledge empowers us to engage in eco-friendly activities and contribute to environmental preservation through conducting various research projects.

Listen then talk

- 1- Interruptions negatively impact our connections with others.
- 2- Interruptions can also lead to misunderstandings and subsequent conflicts.
- 3- Waiting to hear others' opinions demonstrates respectful behavior, allowing for the sharing of ideas related to the discussion.

Interview with businessman

- 1- Money is often a popular topic of discussion. Inviting a businessman to share insights can influence others' perspectives on financial matters.
- 2- Additionally, the businessman can share his experiences, providing valuable learning opportunities for individuals seeking to gain insights into various methods of earning money.

Children should be treated in the same way

- 1- Discrimination between children, whether based on talent or perceived ability, has negative impacts on both talented and ordinary students. The former may become ostentatious, while the latter may feel disappointed and demotivated.
- 2- Additionally, parents can play a crucial role in identifying their children's talents and nurturing them equally, regardless of any perceived differences.

Older people should not participate in dangerous activities

- 1- They may lack the flexibility and strength they had in their youth.
- 2- Engaging in high-risk activities may pose a threat to their lives and have negative impacts on their physical health.
- 3- It is advisable for them to participate in low-risk activities to ensure their safety and well-being.

Pottery making

- 1- Shaping mud allows us to experience various tactile sensations, offering an interesting hands-on activity that helps reduce stress levels.
- 2- Engaging in mud shaping fosters the development of visual creativity and innovation.
- 3- Furthermore, the artworks created from mud shaping can be utilized in our daily lives.
- 4- Mud shaping activities also improve hand-eye coordination.

Discuss the private activity of the celebrities

- 1- Respecting celebrities' privacy is crucial as they have their own private lives, which should be highly valued.
- 2- Celebrities are constantly exposed to the public, so discussing their private lives can disrupt their peace and sense of privacy.
- 3- Such behavior is invasive and disrespectful of their personal boundaries.

Airplane pilot

- 1- Being an airplane pilot offers the opportunity to enjoy breathtaking views of landscapes and the sky, providing an adventurous experience. Moreover, it opens up numerous travel opportunities around the world.
- 2- Additionally, the collaborative nature of the job fosters the formation of a strong team, enhancing the enjoyment of the trip for all involved.

Separate residence hall

- 1- Segregation provides a comfortable environment for individuals of both genders.
- 2- Additionally, it allows for a sense of privacy, enabling students to focus on their studies without potential distractions.

Simple surrounding

- 1- Excessive decoration in the workplace can lead to distractions for students. Simplicity fosters a sense of peace, allowing individuals to focus on their work.
- 2- Students often lack independent financial resources, making it impractical for them to afford various decorations.

Studying independently

- 1- Individuals possess diverse learning styles, enabling them to devise study plans tailored to their preferences without relying solely on the teacher's guidance.
- 2- The flexibility of independent study encourages students to take ownership of their learning, leading to increased motivation and subsequently improved performance and learning outcomes.

A park with natural traits

- 1- Constructing a park with natural features offers students a serene environment to alleviate their stress.
- 2- Additionally, it enhances the university campus with natural beauty, providing a lasting impact compared to artificial art settings.

Research about clean rivers and ocean

- 1- With the increasing population, it becomes imperative to prioritize research on environmental preservation.
- 2- These research efforts can help protect marine animals that are at risk of extinction.
- 3- Furthermore, addressing the shortage of water, a significant issue in today's world, is crucial for ensuring our survival, highlighting the importance of water purification efforts.

Participating in different shows

- 1- Participating in these activities, especially with a relevant background, aids in the development of social skills like effective communication.
- 2- These activities are enjoyable and provide opportunities to create memorable moments with others, fostering valuable friendships along the way.

Taking a trip

- 1- Student trips offer valuable experiences, allowing students to enhance their social skills through effective communication with fellow travelers.
- 2- Traveling provides a means to escape from the stressful situations of university and classes, offering a much-needed break.
- 3- During trips, students have the chance to explore new things and create enjoyable moments, adding excitement and adventure to their experiences.

Children need to learn cooperate

- 1- Cooperation with others allows children to develop a range of skills including social skills, decision-making, and leadership abilities.
- 2- Working within a team teaches children how to collaborate effectively while adhering to group rules.
- 3- Socialization at a young age contributes to the development of positive characteristics that will benefit children in their future workplaces.

Let children choose

- 1- Children possess the ability to differentiate between favorable and unfavorable things.
- 2- From a psychological perspective, it is crucial for parents to allow children to explore their interests and learn from their experiences.
- 3- Forcing children to pursue activities such as playing a musical instrument, when their abilities lie elsewhere, can negatively impact both the child's enthusiasm and the parent-child relationship.

Talking to give feedback

- 1- Verbal admiration has a strong impact on students, as it eliminates potential misunderstandings that may arise from written messages by conveying tone and body language.
- 2- This personalized verbal communication, tailored to students' individual characteristics, enables teachers to forge strong bonds with their students, ultimately contributing to improvements in their performance.

Watching movies to become familiar with culture of the foreign country

- 1- Videos are available in various genres, providing a clear representation of a country's culture with cinematic appeal that captivates viewers. Additionally, they offer an accessible means to learn the language of that country, an important aspect of becoming acquainted with other cultures.

Disadvantages of the surprising quizzes

- 1- Surprising quizzes can create stressful situations for students, potentially impacting their performance.
- 2- Professors should provide students with advance notice of quizzes, along with information about the rubrics and content. This preparation allows students to adequately prepare for exams and helps them stay focused and relaxed during the assessment.

Celebrities are a good set a good role

- 1- Influential individuals serve as powerful examples of success, making them potential role models for younger people. Additionally, they can inspire and motivate young individuals to engage in charitable activities, fostering a sense of passion and excitement within communities.

Art history

- 1- Art history courses allow us to become acquainted with some of the greatest artworks, aiding in our understanding of their potential meanings and significance.
- 2- Acquiring knowledge about the history of art provides valuable insights into the progression of art and its application across different periods of time.

Make a plan

- 1- Having a plan before engaging in any activities provides us with a comprehensive overview of what needs to be done.
- 2- It helps us prioritize important actions, ensuring that we focus on the most critical tasks first.
- 3- Devising a meticulous plan enables us to use our time and money more efficiently, optimizing resources for better outcomes.

Experienced teachers

- 1- Due to their experience, these teachers have gained a great reputation among their peers, making them attractive candidates for employment at high-ranked schools.
- 2- These experienced teachers possess valuable leadership skills, enabling them to effectively manage classrooms and create conducive learning environments for students.

Use imagination and creativity for student's success

- 1- Students will better learn through their imagination. Using creativity helps them to pick the best solutions for their challenges, leading to innovation.
- 2- Every day, we may encounter different challenges. If we develop our creativity and imagination, we can solve them with unique approaches.

Family relation

- 1- The act of giving birth to and raising us underscores the importance of respecting our parents.
- 2- Unlike friendships that may come and go, our family members are a constant presence in our lives.
- 3- We can always rely on our family members for support and assistance whenever we need it.

Dormitory

- 1- Dormitories are spaces where students spend a significant amount of their time.
- 2- Despite potentially high initial costs, investing in modern amenities for dormitories can attract more students and generate additional revenue for schools.
- 3- Repairing dormitories can create a comfortable and relaxing environment for students, enhancing their overall well-being.

Long term observation

- 1- To understand others' interests and preferences, it requires spending ample time with them.
- 2- Delving into individuals' deepest beliefs and mindsets necessitates engaging in lengthy conversations with them.
- 3- Initial impressions of a person may lead to dislike, but with time and interaction, opinions can change.

Spend little money

- 1- We can allocate a portion of our budget to prioritize various forms of entertainment.
- 2- We can then save the remaining funds to cover unexpected expenses, such as medical emergencies or accidents.

Monetary reward-disagree

- 1- Children do not have the ability to spend money properly.
- 2- Financial gifts are not interesting to children due to their characteristics.
- 3- They prefer to receive toys or something similar.
- 4- Additionally, monetary rewards are not suitable gifts to motivate children.

Check employee occasionally

- 1- If employees supervise each other, it may result in other employees losing their independence, as they may feel that someone is intervening in their work.
- 2- Constant monitoring can cause distractions and have negative impacts on their work.

Older doctors

- 1- I believe experience has a significant correlation with the success of doctors.
- 2- Through these experiences, they learn and may encounter various diseases, which helps them become familiar with a wide range of medicines.
- 3- Personally, I prefer to go to experienced doctors when I feel sick.

Importance of being friendly

- 1- We can develop our social networking through these friendships, which is an important factor for the company's success.
- 2- Through these friendly interactions, we can exchange ideas with our co-workers. The more ideas we exchange, the greater our chances of achieving success.

Teaching in primary schools is easier

- 1- The materials used in these classes are considerably easy for both teachers and students.
- 2- Teaching in these grades incorporates various methods, including playing games, having discussions, watching movies, and engaging in gameplay. Because of this, it is more interesting for teachers and serves as good assistance for them.

Assign lots of homework-disagree

- 1- Learning and teaching are complicated processes. Relying solely on one method, such as assigning homework, is not practical.
- 2- Teachers should employ various methods that consider students' learning styles and educational objectives.
- 3- Implementing modern teaching techniques can help students develop their learning and performance.

Doing exercise every day

- 1- Regular exercise is beneficial for individuals' health.
- 2- The more they prioritize physical health, the healthier their lifestyle becomes.
- 3- Through regular exercise, people can improve their concentration.
- 4- This improved concentration allows them to focus on their work and solve problems more efficiently.
- 5- Engaging in exercise provides a great opportunity to escape from the stressful situations of our lives.

Work in library

- 1- It is a type of work that helps us communicate with others, thereby developing our social skills.
- 2- Through these interactions, we can create enjoyable moments in the workplace.
- 3- During our free time, reading books is a great way to spend our time and helps us cultivate a sense of awareness within ourselves.

Start project as early as possible

- 1- We can do it without any pressure or stress. The more relaxed we are, the more successful we will be.
- 2- Starting our project earlier allows us to divide our time appropriately and allocate it for completing other assignments.

Close friendship with employee

- 1- In a friendly environment, employees can forge a strong bond with their managers.
- 2- This rapport is advantageous for both parties, as they can exchange ideas and share their perspectives on various matters.
- 3- Mutual learning fosters development, ultimately contributing to the success of the business.

Do not allow bad language in TV

- 1- The audience of TV programs encompasses a wide range of ages, from children to the elderly.
- 2- It is important for governments to create programs that cater to the preferences of all family members.
- 3- TV programs wield significant influence over individuals. Therefore, utilizing appropriate TV shows to promote moral behavior is essential.

Outdoor camp

- 1- It offers a unique experience for students, as spending a night away from their homes or dorms is highly intriguing to them.
- 2- Participating in these camps enables students to form connections with their peers, leading to enjoyable moments.
- 3- They will enhance their social skills through effective communication and independently explore various aspects of life.

Smartphones

- 1- By utilizing this cutting-edge technological tool, individuals can access diverse and vast sources of information.
- 2- They can use it to read books online without needing to visit a library or enroll in courses from various parts of the world.
- 3- With their mobile devices, they can record various classes, allowing them to review materials and prepare for exams.
- 4- They can also utilize practical applications for analyzing or calculating data efficiently.

Sound engineering

- 1- Some courses from the engineering department are closely linked to mathematics.
- 2- Gaining knowledge in this fundamental field is advantageous for students, particularly those pursuing engineering majors.
- 3- They can enhance their skills related to mathematical concepts, such as critical thinking and problem-solving.
- 4- Their systematic and logical mindset enables them to consider all factors and analyze every detail effectively.

Work in others' company

- 1- Managing a company on our own is a complex and challenging endeavor.
- 2- To excel in this role, one must possess risk-taking characteristics and strong leadership skills.
- 3- Conversely, when working for others, individuals may not have to worry about the consequences of their actions.
- 4- We may find it difficult to handle the additional pressure of managing numerous employees.
- 5- Moreover, working in other companies allows us to develop our skills and demonstrate our aptitude and talents across various tasks.

party with friends

- 1- Spending time with our peers is highly enjoyable and interesting for individuals.
- 2- We often engage in numerous mutual and common conversations with them.
- 3- Sharing similar interests allows us to know how to spend our time together effectively.
- 4- Together, we can participate in various activities such as playing video games, dancing, watching movies, and more.

Enemies for success

- 1- Competitors or rivals are crucial factors for driving further achievement.
- 2- They serve as significant motivation for individuals to strive for their best, as they aim to demonstrate their prowess among their peers.
- 3- For instance, in a high school setting, having rivals helps us remain focused on our goal of showcasing our skills to them by achieving higher grades.

Do homework with people

- 1- Through group work in completing assignments, individuals can exchange ideas and share experiences, aiding each other in accomplishing their tasks.
- 2- Students can learn from each other, facilitating the development of their social skills.
- 3- By dividing homework, we can allocate specific parts to individuals with related abilities.
- 4- This allows us to complete assignments swiftly and efficiently.

Learning domestic skills

- 1- Learning these tasks will help individuals prepare themselves for future life, enabling them to become self-reliant.
- 2- This fosters a sense of independence, which is a crucial aspect of an individual's character.
- 3- Engaging in these activities is beneficial for child-parent relationships because by participating, individuals can assist their parents with household chores.

Going immediately to the university

- 1- Attending university without any academic gaps is beneficial for students because it ensures they do not waste time waiting.
- 2- Moreover, being in an academic atmosphere makes it easier for them to seamlessly continue their studies without interruptions.

Building zoo

- 1- It is an effective method for saving animals.
- 2- Scientists and researchers have easy access to various animals, enabling them to analyze them thoroughly.
- 3- They can also assist endangered animals in finding suitable mates in zoos.
- 4- Additionally, animals in zoos are protected from threats such as food and water shortages caused by global warming, as there is sufficient food and water available for them.

Fashionable cloth – disagree

- 1- It is not necessary for people to wear clothes that align with current fashion trends.
- 2- What truly matters is that they wear attire that conforms to societal standards.
- 3- Some individuals may prefer to express their personal style through their clothing choices.
- 4- Ultimately, people tend to prioritize comfort when selecting their attire.
- 5- Regardless, it's important for individuals to maintain cleanliness and wear clothes that fit well.
- 6- Being tidy and presentable holds more significance than blindly following fashion trends.
- 7- Often, fashionable clothes come with high price tags, making them inaccessible to ordinary people.
- 8- Therefore, individuals are not obliged to wear such expensive clothing items.

Strict professor in grading

- 1- Professors of this caliber dedicate a significant amount of their time to their students.
- 2- It is crucial for them to closely monitor the progress of each individual student.
- 3- They take responsibility for their students' academic development because the learning outcomes of their students are of utmost importance to them.

Reward- academic performance

- 1- The primary purpose of universities is to educate people, therefore, when individuals achieve high grades, universities should commend them.
- 2- Such recognition serves to motivate students to persist in their studies.
- 3- Furthermore, it acts as a significant motivation for all students to strive for excellence and continuously improve their performance.

Solve a challenge by ourselves

- 1- When we attempt to resolve a challenging situation, we rely on our personal abilities, fostering a sense of independence.
- 2- Through being held accountable, we take responsibility for our actions and decisions, enabling us to navigate adverse situations, gain valuable experience, and enhance our abilities.

Kindness in friendship

- 1- Personally, I believe kindness is the most valuable trait from my friend's perspective in our friendship.
- 2- In friendship, it's essential that we are attentive to each other's needs and well-being.
- 3- Through kindness, we can build trust in our friendship and depend on our friends for consistent support during challenging times.

Ask fellow students instead of professor

- 1- Professors often have busy schedules, making it difficult for students to meet them in person and ask their questions. However, fellow students possess sufficient knowledge and experience to address these inquiries.
- 2- Fellow students can provide comprehensive answers to questions and offer guidance with patience, or even assist students in completing their assignments.

Have our schedule fully and arranged

- 1- These individuals maintain a regular routine, allowing them to prioritize their goals effectively.
- 2- A busy schedule ensures that individuals do not waste their time idly.
- 3- They can efficiently and swiftly complete their tasks.
- 4- Once they finish a task, they can make use of their free time immediately.

Experienced and unexperienced climbers

- 1- A sport like climbing demands specific skills.
- 2- Without adequate practice, it can become highly dangerous.
- 3- Climbing necessitates both physical strength and mental resilience, as well as prior experience.
- 4- Without these essential factors, individuals risk endangering their lives.

Do house chores

- 1- Engaging in household chores allows children to practice various skills.
- 2- This participation aids in the development of management skills, which are essential for their future endeavors.
- 3- Through these tasks, children learn to take responsibility and gain a sense of control within the household.
- 4- Furthermore, helping with house chores fosters better child-parent relationships as children contribute to the family's well-being.

Joining hiking club

- 1- Engaging in physical activities such as hiking is beneficial for individuals' health.
- 2- Hiking experiences allow us to intimately explore various surroundings and elements of nature.
- 3- Additionally, hiking provides opportunities to form different groups and share our journeys with others.
- 4- These experiences can lead to enjoyable moments and the development of various skills.

Story of famous people live

- 1- Renowned individuals serve as exemplary role models for people due to their success and wealth.
- 2- They possess significant influence over ordinary individuals, capable of motivating and guiding them, sometimes even in political matters.
- 3- For instance, a documentary detailing the lives of icons like Maradona or Pele can inspire young children to pursue football and aspire to become successful football players in the future.

Being a child-easier

- 1- Childhood is often considered easier because individuals have fewer responsibilities and worries.
- 2- Their world revolves around simple joys like playgrounds and games.
- 3- In contrast, adulthood brings numerous challenges such as academic stress, financial concerns, and difficulty in finding genuine friendships.
- 4- With age comes the realization that trusting others becomes increasingly difficult due to encountering lies and dishonesty, making it a significant challenge to navigate interpersonal relationships.

Retire at age 65

- 1- 1- At this stage in life, individuals may find themselves lacking the same level of energy and passion they once had.
- 2- They often prioritize spending time with their spouses or partners.
- 3- Undoubtedly, older individuals seek peace and yearn to escape from the stressful environments of the workplace.
- 4- Consequently, it may be beneficial for them to step aside from their positions and allow younger employees to take the lead.
